

The Fresh Clean Scent of Lavender

Ki Essentials body care is unique. Many products labeled “natural” contain synthetic fragrances and other artificial ingredients that can dry out and irritate your skin. Ki Essentials offers an alternative.

This luxurious, creamy French Milled bar, developed by whole foods expert Wendy Esko, contains no animal by-products or artificial ingredients, and is made only with pure plant oils and extracts. Ki Essentials Lavender Aloe Soap combines the soothing and healing properties of aloe vera with the fresh, clean scent of lavender, an essential oil highly regarded for its calming, relaxing, and balancing properties. Naturally moisturizing, Ki Essentials soap is gentle and suitable for any skin type.

“We are proud to present personal care products that utilize the power of natural botanical ingredients. I hope you enjoy these high-quality products as much as I do.” - Wendy Esko, Ki Essentials Co-Founder.
